Historic, Archive Document

Do not assume content reflects current scientific knowledge, policies, or practices.

HOSE who have previously received our catalogues will miss the illustrations in this issue. We believe that the plant-purchaser knows what he wants, and is most interested in what we have for sale, the sizes and prices, printed in plain, large type, and does not depend to any extent upon

catalogue illustrations for guidance. Anyone seeking advice on garden or landscape matters will please refer to the inside back cover page of this catalogue. We will send, on request, a list of carefully selected books, covering the entire field of horticulture.

Important to Purchasers

PRICES-NOTE CAREFULLY

Single-rate prices are for less than five of a kind.

Ten-rate prices are for five or more, and less than twenty-five of a kind.

Hundred-rate prices are for twenty-five or more, and less than 250 of a kind.

Thousand-rate prices are for 250 or more of a kind.

We cannot agree to fill small orders for a few of a kind for less than single rates, as it oftentimes takes one over many acres of ground to fill a single order, and the proportionate expense of digging and packing orders must be taken into account.

SPECIAL DISCOUNTS ON TREES AND PLANTS to those who send us orders for less than five of a kind, shipped at the same time, amounting to the following:

Orders amounting to \$10, a discount of 5 per cent

Orders amounting to \$30, a discount of 10 per cent Orders amounting to \$50, a discount of 15 per cent RATE CATALOGUE

Orders amounting to \$75, a discount of 20 per cent Orders amounting to \$100, a discount of 25 per cent

Special discounts on larger orders. Send us list for estimates.

Trees and Plants individually selected at our nurseries, or special quotations, will be charged for according to quoted price without discounts.

PRICES ONLY.

- RMS. Cash in advance from unknown parties, or satisfactory reference. We send invoice at time of shipment of order, and should any error be noticed on receipt of goods, notify us immediately, and we will do all in our power to see that it is rectified.
- HOW ORDERS ARE SHIPPED. We ship large trees and other bulky orders by freight, unless otherwise requested. Medium-sized orders can be shipped by express to advantage; this is especially advisable where immediate arrival is desired. All orders are delivered free to local freight or express companies and in the city. We are not liable for delays by forwarding companies. If stock is not promptly received, notify us and we will trace.
- **EKING.** We charge for packing at cost, when stock is purchased at hundred-rate prices, or in case of large, bulky stock, or where we ship with carefully preserved balls of earth. Otherwise we make no charge for packing.
- **HOW TO REACH US.** Our nursery and office are located at EDGEWOOD, Edgewood Avenue, just beyond Edgewood Park. See Guide Map on inside back cover.
- **EARLY ORDERS.** To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice, without doing an injustice to others who have their orders previously booked. In fairness to all, we have adopted the practice of filling orders in the rotation received, unless orders reach us far enough ahead of the packing season, with instructions to ship at a given date, so that we can arrange a special shipping date. So we again say-place your order as far in advance of shipping as you possibly can, stating when you would like stock sent.
- **IMPORTANT NOTE.** Visitors are always most cordially welcome. During the spring and fall there are short intervals, however, when it is quite impossible for us to devote much time to showing parties about the nursery, as these are the most strenuous shipping periods of the entire year.
- TRANSPLANTING DIRECTIONS. This instructive pamphlet we are pleased to send on request.

THE ELM CITY NURSERY COMPANY

EDGEWOOD, Edgewood Avenue, NEW HAVEN, CONN.

The following lists are so arranged that quick reference can be made to sizes and prices of the stock we have to offer. We have used a popular classification, as follows:

TREES. Pages 1 to 11. Shedding foliage in the Autumn. Example, Maple.

EVERGREENS. Pages 12 to 18. Foliage remaining on tree throughout the year. Example, Norway Spruce.

BROAD-LEAF EVERGREENS. Pages 19 to 21. Foliage remaining throughout the year. Example, Rhododendrons.

SHRUBS. Pages 23 to 34. Shedding foliage in Autumn. Example, Lilac.

VINES. Pages 35 to 37. Example, Wistaria.

HERBACEOUS PERENNIALS. Pages 38 to 52. Hardy permanent roots. Above the ground the growth is renewed annually. Example, Paeonia.

HARDY ROSES. Pages 53 to 54.

FRUIT DEPARTMENT. General list of fruit trees and small fruits. Pages 55 to 59.

The Botanical names are inserted alphabetically in THIS TYPE, under their respective classes, and refer to the popular, common or English names.

Examples—ACER, see Maple; PICEA, see Spruce, etc.

COMMON AND BOTANICAL NAMES	Each	Per 10	Per 100

growth. The trees are festooned with 8 to 10 feet.		12.50	100.00
drooping racemes of blooms resembling 6 to 8 feet.	1.00	9.00	75.00
the wistaria, creamy white and fragrant. YELLOW-WOOD JAPANESE (C. Amurensis).			
Specimens, 8 to 12 feet, \$2.00 to	5.00		
Specimens, 6 to 12 feet, \$2.00 to	0.00	1	1

Bridgeport, Conn., October 20, 1913.

The Linden trees and Barberry came O. K. Enclosed find check for ——. You certainly have a good system in your business. You packed and shipped the trees in better shape than any I have ever received. $T.\ R.\ G.$

Evergreens are a specialty with us and our collection includes many rare and beautiful specimens as well as a large stock of the more common sorts. We are fortunate in having soil conditions very favorable for their development, both of top and root. We transplant and root-prune all our evergreens frequently, which practically insures their successful transplanting, even of the larger specimens.

How to Ship Evergreens.

We recommend hauling by teams when delivery is within economical distance. Small orders to distant points can be boxed for shipping by freight or express, but where a number of specimen trees are to be sent, we advise shipping in bulk in car lots; this saves the cost of boxing and insures their arrival without injury. We gladly advise, if requested, the shipping method we recommend for individual shipments.

Forestry Evergreens.

We strongly recommend the use of either two-year old seedlings or three-year old transplants for forest plantation. The latter are much stronger and better able to withstand severe conditions. Inquire for Special list.

Boston, Mass., August 27, 1913.

C

I had 50 Arborvitae (Siberian) Specimens of you last Spring. Your stock was very well dug, burlapped and packed.

H. L. M.

DAD LEAF

THE great beauty of the broad leaf evergreens makes them most valuable for gardening purposes. Many are among our most spectacular and gorgeous flowering shrubs, while their broad, attractive leaves show out most effectively during the parts of the year when many trees and plants are without foliage. There is practically no end to the charming results that can be gained by the liberal use of this class of plants. Groupings generally give most attractive effects and the plants themselves do much better when planted this way.

Good, fertile loam should always be used in preparing for this class of plants. Sufficient water should be supplied at least until they become well established so that they will not suffer from dryness. This does not necessarily mean frequent watering.

watering.

RHODODENDRON MAXIMUM (Rose-Bay).

This native broad-leaf strictly hardy evergreen affords splendid opportunity for no end of charming effects. In large public parks and private estates they can used by thousands, and even within the more restricted area of the usual city lot many chances for their liberal use are sure to arise. This beautiful Rhododendron is perfectly hardy and thrives luxuriantly even in the shady corner and under trees. Our stock is collected high up on the tablelands of the Allegheny Mountains where it is so very cold and exposed to such severe weather conditions that even the native trees are dwarfed in growth.

SHIPPED FROM NURSERY.

Formal Trees and Shrubs

THE ELM CITY NURSERY COMPANY

THE popular demand for formal trained trees and plants is now very great. We have gathered together from various European and other sources a large collection of splendid specimen Bay-trees, Box, Holly, etc., adaptable to this special purpose. They are grown in tubs, boxes, etc., and can be shipped any time.

Bay Trees (Laurus Nobilis).

These dignified stately plants are without rivals for many formal uses. They will stand almost every summer exposure and several degrees of frost without injury. Now in tubs and can be shipped any time.

European Hollies, Yews, Laurels, Privet, Hydrangeas.

We have assembled a splendid collection of these plants in various varieties and sizes so useful in creating charming garden effects. Inquire for special list of stock on hand or better, visit the nursery and see them. These are mostly in tubs and pots and can be shipped any time.

Special Japanese Exhibit.

A rare collection assembled personally by one of the members of the Company while in Japan recently, is on exhibition at the Nursery. The individual specimens are not for sale singly, as the collection is too valuable to be broken up. A price will be considered, however, for the entire collection. A number of these trees are of great age and all of them are most interesting in their forms and expressions—a rare treat well worth seeing.

DOGWOOD WHITE FLOWERING, see Trees. ELDER AMERICAN (Sambucus Cana-			
densis)	\$.50	\$3.50	\$25.00
Native plant. Very useful shrub, 2 to 3 feet.	.35	2.00	15.00
especially for planting on moist ground. ELDER AMERICAN CUT-LEAF (S.			
Canadensis var.)	. 50	3.50	30.00
A very beautiful variety with grace- 2 to 3 feet.	.35	2.50	20.00
ful fern-like foliage, bearing large ter- 1 to 2 feet.	.25	2.00	18.00
minal clusters of creamy white flowers in July, followed by jet-black fruits.			
CLDER AMERICAN GOLDEN-LEAF			
(S. Canadensis var.) 3 to 4 feet.	. 50	3.50	25.00
A popular golden-foliaged form, very 2 to 3 feet.	. 35	2.00	15.00
useful for massing for color effect. LEAGNUS or GOUMI (Eleagnus Lon-			
gipes) 3 to 4 feet.	. 75	5.00	
Attractive shrub, edible fruit. 2 to 3 feet.	. 50	4.00	30.00
LEAGNUS or OLEASTER (E. Angusti-	0.00		
folia)	$\frac{2.00}{.50}$	3.50	
silvery foliage. Very useful for mass 3 to 4 feet.	.35	2.50	
planting and especially adapted for			
sea-shore planting.			
LEAGNUS or SILVER THORN (E. Umbellata)Specimens, 5 to 8 feet, \$1.50 to	15.00		
Another effective, tall-growing shrub 3 to 4 feet.	. 50	3.50	25.00
with silvery foliage, spicy blooms and 2 to 3 feet.	. 35	2.50	20.00
showy edible fruit late in the Fall.			
UONYMUS AMERICAN or BURNING BUSH (E. Americanus) 4 to 6 feet.	1.00		
Tall, tree-like, brilliant pendent 3 to 4 feet.	.75	5.00	40.00
fruits in Fall.			
JONYMUS BROAD-LEAF (E. Latifolia). 2 to 3 feet.	1.00		
A rare medium growing type with much larger fruits than the other			
forms. Very showy in the Fall.			
UONYMUS EUROPEAN BURNING			
BUSH or SPINDLE TREE (E. Euro-	15 00		
peus)Specimens, 8 to 10 feet, \$2.50 to Tall, tree-like; fruit clusters abund- 5 to 6 feet.	$\frac{15.00}{1.00}$		• • • • •
ant and showy, grows well in shady 4 to 5 feet.	.75	5.00	40.00
places. 3 to 4 feet.	.50	3.50	25.00
UONYMUS EUROPEAN ATRO-PUR-			
PUREUS (E. Europeus var.). Specimens, 5 to 7 feet, \$1.00 to	4.00		
Similar to preceding but the Fall 3 to 4 feet.	.50	3.50	
fruits are much brighter. 2 to 3 feet.	.35	2.50	
JONYMUS JAPAN BURNING BUSH	0.00		
(E. Alatus)Specimens, 4 to 6 feet, \$3.00 to Very distinct shrub, branches con- 3 to 4 feet.	$\frac{8.00}{1.50}$		
spicuously winged. Fruit and foliage 2 to 3 feet.	1.00	7.50	60.00
assuming in the Fall most intense 1 to 2 feet.	.50	3.50	30.00
brilliant crimson. One of the most			
important recent additions to our list of shrubs.			
UONYMUS NARROW-LEAF (E. Nanus			
or Linearis)	.35	2.50	
Handsome shrub with trailing habit. 1 to 2 feet.	. 25	2.00	15.00
Fine for rockeries and slopes. Slender			
foliage, and evergreen in protected locations.	•		
UONYMUS, evergreen types, see Broad			
Leaf Evergreens.			
XOCHORDA GRANDIFLORA or	£ 00		
PEARL SHRUBSpecimens, 5 to 7 feet, \$2.50 to	5.00	3.50	
Tall shrilb, of graceful habit, bearing 3 to 4 test i	.35	$\frac{3.50}{2.50}$	20.00
Tall shrub, of graceful habit, pearly- white blooms. 2 to 3 feet.

A Gift of Vines for Churches and Public Buildings.

We will be pleased to donate from 3 to 10 nice stocky plants of Ampelopsis Veitchii (Boston Ivy). This is the vine that grows so attractive on walls and turns a brilliant red in the Fall. The understanding is that these vines are to be planted about the foundation wall of the church or public library buildings and given necessary care for their welfare. We would prefer applibuildings and given necessary care for their welfare. cations authoritatively signed.

Boston, Mass., February 2, 1914.

"I am very glad to say that all my dealings with The Elm City Nursery Co. have been entirely satisfactory. All of the stock which you have sent me from time to time is doing well, and whenever any mistake has been made I have always found you prompt to rectify it. Please send copy of your latest catalog as I wish to send an order for Spring planting." Very truly yours, E. N. F.

These include such splendid garden plants as Pæonies, Iris, Larkspurs, etc. The great ease with which these plants can be grown, their great variety of color and season of bloom makes them indispensable for the garden. We are making them a specialty at the nursery, growing them in large quantities.

In arranging this list we have used the popular or common names as far as

seemed consistent.

The following Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left. Stock can be potted to order and held for any delivery date.

	Each	Per 10	Per 100
*Very strong Field Clumps (Express or Freight)	30c.	\$2.50	\$20.00
Strong Field Grown, usual size (Express recommended)	20c.	1.50	12.00
Smaller size (mostly field grown) (Post-paid at single rates if	•		
requested)		1.00	8.00

Note. We wish to call your attention to our very low prices on Coreopsis, Gaillardias, Hollyhocks, Larkspurs, Pyrethrums and Sweet William.

ACHILLEA, see Yarrow.
ACONITUM, see Monkshood.
ADAM'S NEEDLE, see Lilies.
AEGOPODIUM PODAGRARIA

AEGOPODIUM PODAGRARIA VARIEGATA. One foot. Splendid for covering the ground under trees. Will grow anywhere.

ALTHEA, see Hollyhock.

ALYSSUM SAXATILE (Golden tuft). ½ to 1 foot. May and June.

Forms a clump of velvety foliage, flowers of the richest yellow, fragrant.

*AMSONIA ANGUSTIFOLIA. 2 to 4 feet. May. Glossy, willow-like leaves, forming an attractive bush of foliage, turning rich yellow in the fall. Flowers deep blue deep blue.

ANCHUSA ITALICA DROPMORE. 4 feet. June and July. Without doubt the finest blue-flowered herbaceous plant in existence.

ANEMONE JAPONICA ALBA. (Japanese Windflower). 2 to 3 feet. August to October. Large pure white flowers, very free flowering.

ANEMONE JAP. MONT ROSE. 2 to 3 feet. August to October. Semi-

double, deep pink flowers.

ANEMONE JAP. QUEEN CHARLOTTE. 2 to 3 feet. August to October.

Very large, semi-double, silvery pink, one of the best.

ANEMONE JAP. RUBRA. 2 to 3 feet. August to October. Rosy-red flowers,

freely produced.
ANEMONE JAP. WHIRLWIND. 2 to 3 feet. August to October. Large,

semi-double, pure white flowers, very free flowering.

ANEMONE PENNSYLVANICA. 1 to 1½ feet. June. Large, single, pure white flowers.

THEMIS TINCTORIA ALBA. 2 to 3 feet. July to October. Creamy white, otherwise similar to the following, both being very desirable and of ANTHEMIS TINCTORIA ALBA. easiest culture

ANTHEMIS TINCTORIA VAR. KELWAYI. 2 to 3 feet. July to October. Brilliant yellow daisies in great masses, splendid for cutting.

AQUILEGIA, see Columbine. ARABIS, see Rock-Cress. ARENARIA, see Sandwort.

ARMERIA, see Thrift.

ARTEMESIA LACTIFLORA. (New). 4 feet. July to October. 35 cents each.

A charming plant bearing spikes of fragrant white flowers, beautiful dark green foliage. ARTILLERY-PLANT, see Dictamnus.

ARUNCUS, see Spiræa.
ARUNDO DONAX, see Grasses. ASCLEPIAS, see Butterfly-weed.

ASPERULA ODORATA (Sweet Woodruff). 6 to 8 inches. May and June. White

ER ALPINA. 6 to 8 inches. May to June. Low growing plant; fine for borders; effective for rockery. Flowers bright purple, rich yellow center. ASTER FOR PRICES OF THE ABOVE HERBACEOUS PLANTS SEE ABOVE.

THE ELM CITY NURSERY COMPANY

ASTER NOVAE ANGLIAE VAR. ROSEA. 2 to 5 feet. October to November.

A variety of our native New England aster, with very large flowers in the greatest profusion. Color, clear rosy red with rich golden center.

ASTER STOKES (Stokesia Cyanea), 1 to 2 feet. July to September. Double, light pleasing blue. Very desirable.

light pleasing blue. Very desirable ER TATARICUS. 3 to 4 feet. ASTER October and November. Blue flowers.

Very effective.

ASTILBE, see Spiræa.

AURATUM LILY, see page 44.

BABY'S BREATH (Gypsophila Paniculata). 3 to 4 feet. July to October.

Produces a mass of small white flowers so disposed as to form a veritable cloud of bloom.

BABY'S BREATH DOUBLE (Gyp. Pan. Fl. Pl.). 3 to 4 feet. July to October.
A new form and very desirable.
BABY'S SLIPPER, see Lotus.
BALLOON FLOWER, see Platycodon.
*BAPTISIA AUSTRALIS (False Indigo). 4 to 6 feet. June and July. Clear

blue. Foliage effective and lasts well through the season.

BEARD TONGUE, see Pentstemon.

BEE BALM (Monarda Didyma Var. Superba). 2 to 3 feet. July to October.

One of the old garden plants which will ever be popular. Brilliant scarlet flowers of spicy fragrance.

BELEMCANDA CHINENSIS, see Lily, Blackberry.

BERGAMOT, see Bee Balm. BETONY, see Stachys Betonica. BLACK-EYED SUSAN, see Rudbeckia. BLANKET-FLOWER, see Gaillardia. BLEEDING-HEART, see Dicentra.

BLUEBELLS, see Campanula.

BUCCONIA CORDATA (Tree Calamdine). 5 to 8 feet. August and September.

Spikes of feathery white. Splendid background plant.

BOLTONIA ASTEROIDES. 6 to 8 feet. August and September. Tall plant,

producing great masses of aster-like flowers, white with yellow center.

BOLTONIA LATISQUAMAE. 6 to 8 feet. August to September.

Similar to above excepting color of bloom, which is light lavender, deep

 $_{
m rellow\ center}$ BOLTONIA LATISQUAMAE NANA. 12 to 15 inches. August to September.

A dwarf form of the above. A new and desirable variety.

BULBS, see Lilies, page 44.
BUTTERCUP DOUBLE (Ranunculus Acris Var. Fl. Pl.). 6 to 12 inches. May and June. Of the brightest yellow. Foliage very glossy green.
BUTTERFLY-WEED (Asclepias Tuberosa). 2 to 3 feet. July and August.

Orange. A very showy native plant and very desirable.

CALLIRHOE INVOLUCRATA (Mallow Poppy). 6 inches, June to October.

Trailing plant with finely cut foliage and rosy purple flowers, flowering all summer, a very desirable plant. CAMOMILE, see Anthemis.

MPANULA CARPATICA. $\frac{1}{2}$ to 1 foot. June to October. Blue. Like the other Campanulas, the flowers are bell-shaped. In this species they are produced singly on delicate wiry stems, and are deep blue. One of the best dwarf CAMPANULA CARPATICA. plants

CAMPANULA CARPATICA VAR. ALBA. $\frac{1}{2}$ to 1 foot. June to October. Similar to preceding otherwise than the color of the flowers, which are purest

CAMPANULA PERSICIFOLIA. June to October.

This species produces its flowers on stems 2 to 3 feet high. The flowers are in

loose clusters, and are very effective. Color blue.

CAMPANULA PERSICIFOLIA VAR. ALBA. June to October. Pure white,

very desirable.
CANDIDA LILY, see page 44.
CANDYTUFT HARDY (Iberis Sempervirens). 6 to 12 inches. April and May.

White; evergreen foliage. Makes a nice foreground border plant.

CARDINAL FLOWER, see Lobelia Cardinalis.

*CENTAUREA MACROCEPHALA. 4 feet. July and August. Large thistle-like golden yellow flowers; very attractive.

CENTAUREA, see Dusty Miller.

CERASTIUM BIEBERSTEINII (Snow in Summer). May and June. 6 inches.

Light silvery foliage, masses of white bloom.

FOR PRICES OF THE ABOVE HERBACEOUS PLANTS SEE PAGE 38.

Warren, R. I., June 10, 1913.

The Christmas Roses were received in good condition bespeaking professional handling of stock and orders.

THE ELM CITY NURSERY COMPANY

CHRISTMAS ROSE (Heleborus Niger). 6 to 12 inches. October to March. This very interesting plant really produces its flowers in the winter, out cors. Daintily colored begonia-like blooms almost hidden in a clump of of doors. glossy evergreen leaves. It is best to select a place for this plant which is sheltered from the winds in winter and where it can remain for years undisturbed. With a light, temporary frame placed over the plants so as to protect from the snow and ice, the blooms develop far more freely and perfectly. Clumps 50 cents, other sizes see top of page 38.

Also the following Christmas Rose Hybrids.
ALBA OTTO. White, spotted crimson purple.
APOTHEKER BOGREN. Rose purple. Very large.
ATRO-RUBRUM. Reddish-purple flowers.
DR. SCHLEICHER. Large. White inside, green outside.

DR. SCHLEICHER. Large. White inside, green of F. C. Heinemann. Large, deep purple, mottled.

F. C. HEINEMANN. Rose purple output, FRAU IRENE HEINEMANN. Rosy-purple, crimson spots. Rose purple outside, greenish white inside.

WM. SCHMIDT. Pure white flowers.

CHRYSANTHEMUM LEUCANTHEMUM HYBRIDUM, see Daisy.
CHRYSANTHEMUM MAX. King Edward VII (Moonpenny Daisy). 2 to 3
feet. June to August. Very large pure white flowers, excellent for cutting, a splendid addition to our hardy plants.

*CHRYSANTHEMUM ULIGINOSUM (The Giant Daisy). 4 to 5 feet.
to September. Splendid plant for tall effects.

CHRYSANTHEMUM HARDY GARDEN.

The hardy garden types are most valuable for late Fall flowers. The plants we offer are well established in pots and will flower abundantly the first season. Price per pot, 25 cents; per 10 pots, \$2.00; per 100 pots, \$15.00.

VARIETIES.

ABIGAIL. Flowers large rosy red with salmon tints at full maturity, showing yellow center. sy. A strong, vigorous grower and very early bloomer. Large, bright-

Betsy. A stron est yellow.

CERISE QUEEN. Striking shade of cerise pink. Champ D'Or. Large yellow, very free.

Bright scarlet maroon. DUNDEE.

ELIZA. Very vigorous, blooming in terminal clusters. Flowers large, deep rose, shading to rosy pink at full maturity.
GLOBE D'OR. Bronzy yellow.
GOACHER'S CRIMSON. Very large crimson.
HANNA. Vigorous grower, flowers large, of a deep rosy red.

HANNA. Vigorous grower, flowers large, or a deep 1003, 1000.

Jane. Early bloomer, flowers large and double to the center. Petals

Clear pink tinged with yellow at quilled, opening flat at the tips. Clear pink tinged with yellow at the base.

JERSEY. Large, pure white. JULIA LAGRAVERE. Crimson maroon.

LUCINDA. Large, purest white, quite double to the center, very abundant bloomer

MIRANDA. Vigorous, hardy and very free flowering, medium size pompon, rich crimson.

LLY. Vigorous, and very free bloomer, petals in whorls, and tubular, pointed at the tips, Clear pink, when fully expanded, showing yellow center, petals margined with crimson. MOLLY.

NANCY. Large, pure glistening white, and at maturity showing rich yellow center, very effective.

QUEEN OF BUL. Beautiful violet rose.

OWEEN OF BUL. Beautiful violet rose.
QUEEN OF WHITES. Large, creamy white.
RHODA. Delicate shade of silvery pink.
SALLY. Large pompon, very double, yellow with crimson showing on the margin of the expanding buds.

ing to deep rosy-red veined deeper red.

EDITH COOK. Medium to low grower, mid-season to late, of strong vigorous habit; of the clearest deep yellow, freely splashed rosy purple.

GARFIELD. Tall, medium to late, light blue, changing to rosy lilac on margins;

light beard.

JACKMANII. Tall and late, robust, of splendid habit; old gold, changing to a rich yellow buff beautifully suffused and shaded with deep rosy tints.

KHARPUT. Mid-season to late, tall, clear blue suffused purple, immense flowers.

MAD. CHEREAU. Late and tall, of beautiful and unique form; pale blue and

penciled with darker blue on margin.

MAD. MODESTE. Medium to late. Incurving, pale blue splashed and margined

purple. PALLIDA. Very late and tall. Resembles the early Florentine in its full large form.

Color rich blue, being suffused with velvety royal purple.

POND POINT. Tall, very vigorous. very large and handsome, clearest deep blue.

QUEEN OF MAY (Maxomosata). Medium to late, tall, perfect form, clearest rose slightly buff at base, shading into clear rose-veined with darker rosy-red.

SILVER KING. The earliest of the tall large type, of ideal full form, and when first unfolding is of the softest pale blue, white at maturity.

WALNERI. Mid-seeson and medium grower clear light blue suffused with royal

WALNERI. Mid-season and medium grower, clear light blue suffused with royal

purple.

Special:—German Iris prices. Strong single crowns 15 cents each. \$1.00 per ten. \$8.00 per 100. NOTE:—Plant several crowns close together if a clump effect is wanted.

THE ELM CITY NURSERY COMPANY

*Japanese Iris.

(Iris Kaempferi or Laevigata.)

This splendid type of Iris is one of the most important of our strictly hardy permanent garden plants. For effective habit and gorgeous display of color it stands alone at its blossoming season, which is June 20th to July 20th.

VARIETIES.

BLUE JAY. Late, medium tall, vigorous, very large, splendid form; deep yellow

at base, changing to a soft azure blue.

DINAH. Mid-season, very tall, medium to large, double, deep blue suffused with

royal purple.
FRANCELLA. Early medium tall, medium size, segments uniform size and broad, almost white at base, changing to deep rose at margins, effective.
GOLD-BOUND. Medium, tall, pure double white.
KATHRYN. Early, tall and vigorous; broad, pale blue, beautifully veined royal

purple. KUMO-NO-SHO. NO-SHO. Double, mid-season, tall, good size, white at base; freely veined which suffuses the segment at the outer margin.

rose, which suffuses the segment at the outer margin.

KUMO-NO-NYE. Late, double, splendid form, richest velvety royal blue, suffused slightly with royal purple, brilliant yellow throat.

OSHOKUN. Double, early, very tall and branching, flower large and showy, seg-

OKUN. Double, early, very tall and branching, flower large and showy, segments rich blue penciled deeper blue with white radiating lines.

PYRAMID. Early to late, very strong grower and free bloomer, of largest size and splendid form, segments light blue at base, to deep blue on margin, suffused with royal purple. ROSY-MORN. Mid-season, tall and graceful, white at base, shading to deep rose.

URC-IN. Double, mid-season, tall and much branched, flower large, pale blue white

changing to rich clear blue.

Iris Pumila.

(Hybrids).

This is a new race of charming Iris, intermediate between the early Pumila and Germanica, in time of blooming and size of flower.

ATROVIOLACEA. 6 to 10 inches. Medium dwarf, early to mid-season. Violet mauve to maroon red, paling to light on the margin.

BRIDE. 12 to 15 inches. Mid-season. Clear ivory white, veined with green and

yellow.

BRIDESMAID. 10 to 15 inches. Clear white, slightly splashed with light blue, veined with yellow and green.

CYANEA. 6 to 10 inches. Deep velvety blue, painted with white veinings.

EXCELSA. 8 to 12 inches. Clearest deep yellow with slight maroon splashings

beautifully veined.

FAIRY. 10 to 15 inches. Pale blue to w
of blue from faint to the deepest blue. Pale blue to white, freely splashed with varying shades

FORMOSA. 6 to 12 inches. Royal blue to deepest velvety royal purple, orange at

base. LUTEA. 10 to 15 inches. Mid-season. Clear yellow to deeper yellow splashed with attractive markings of blue and maroon.

*Other Iris.

IRIS OCHROLEUCA. 3 to 4 feet. June. flowers, a most desirable variety. IRIS ORIENTALIS SNOW QUEEN. 2 for A noble species, large pale yellow

2 feet. A handsome variety June. with beautiful pure white flowers, very free flowering.

IRIS PSEUDACORUS. 3 to 5 feet. June. Very robust, flowers of medium size,

intense clear, deep yellow.

IRIS SIBERICA. 2 to 3 feet. June. Robust growers, foliage somewhat like the Japan Iris, Flowers borne on slender stems, well up above the foliage; color, clear rich blue. Flowers are somewhat larger than our native field iris. In bloom with the late German Iris. Very desirable and especially so for naturalizing

IRIS SIBERICA ALBA. Similar to preceding but white.
IRIS SIBERICA FL. PL. Double form. Blooms late with the Japan Iris.
IRIS SIBERICA VAR. ORIENTALIS. 2 to 3 feet. June. A beautiful Iris of the most vivid velvety deep blue, of medium size and blooming with great free-

IRIS SPURIA. 3 to 4 feet, June. A distinct species with beautiful soft porcelainblue flowers, very attractive.

Lilies.

(Hardy Garden).

The family of lilies includes some of our most beautiful garden flowers and fortunately some of the most beautiful of them are perfectly hardy. There are many of them of easiest culture and even the less easy ones to succeed with, bountifully

of them of easiest culture and even the less easy ones to succeed with, bountifully repay for any extra attention they may exact.

*ADAM'S THREAD AND NEEDLE (Yucca Filamentosa). One of the most valuable plants in cultivation for general garden and landscape planting. Its dagger-like foliage, which is evergreen, forms an attractive clump of foliage, from which appear, in July and August, tall and stately spikes 3 to 6 feet high, bearing large panicles of white lilies, which are most picturesque and decorative.

BELLADONNA LILY (Amaryllis Hallii). 2 feet. July and August. Beautiful flowers in umbels. 3 to 4 inches across, of a delicate lilac pink, very attractive. BLACKBERRY LILY (Belemcanda Chinensis). 2 to 3 feet. June and July. Yellow

low

- DAY LILIES (Funkia). These charming garden lilies are very useful in the hardy border, as a foreground to shrubbery groups and about the foundations of buildings, etc. Their clusters of heart-shaped leaves and graceful flower heads showing effectively. They thrive well in partial shade, as well as in full sunshine. The following varieties are all very desirable.
 - *BLUE DAY LILY (Coerulea). 2 feet. glossy foliage, flowers light blue.
 *BROAD-LEAVED DAY LILY (Ovata). August, September. Dark green

2 feet. August and September.

*BROAD-LEAVED DAY LILY (Ovata). 2 feet. August and September.
Large ovate foliage, flowers light blue.

*FORTUNE'S DAY LILY (Fortune). 2 to 3 feet. July. Rare type.
Large, glaucous, heart-shaped leaves, pale lilac.

*LANCE-LEAF DAY LILY (Lancifolia). 1 to 2 feet. August to October.
Long glossy foliage, lilac flowers.

*SIEBOLD'S DAY LILY (Sieboldii). 1 to 2 feet. July and August. Another
beautiful sort with silvery blue tint to foliage. Flowers pale lilac.

*VARIEGATED DAY LILY (Undulata). 8 to 12 inches. July and August.
A very popular variety; leaves variegated white and green.

*WHITE DAY LILY (Subcordata). 1 to 2 feet. July and August. Large
light green leaves, flowers purest white.

light green leaves, flowers purest white.

CORAL LILY (L. Tenuifolium). One of the most delicate and charming species. 1 to 2 feet high, with 1 to 15 or more nodding rich scarlet flowers.

ELEGANS LILY (L. Elegans). These hardy lilies are very showy and of easiest culture, producing, during the early summer, their brilliant flowers very freely.

The following are all attractive varieties.

VAR. AURORA. Deep rich orange, suffused scarlet.
VAR. BICOLOR. Bright red flushed orange, very showy and large.
VAR. LEONARD JOERG. Rich apricot spotted; very fine.
VAR. PAINTED CHIEF. Bright flame color.
VAR. ROBUSTA. Magnificent large flower; orange spotted black.
VAR. SANGUINEUM. Very rich dark red with few spots.
VAR. WALLACEI. One of the smaller and later forms; a very reliable one for genera use.

GOLDEN-BANDED LILY (L. Auratum). This is a most popular lily. No species ever had so much general favor. Flowers white, with a central golden band and numerous deep purple spots. Height, 2 to 6 feet. July and August.

HANSON'S LILY (L. Maculatum). Attains a height of 3 feet. Flowers reddish orange, six to ten in a cluster; petals thick and durable.

MADONNA LILY (L. Candidum). Handsome, large, fragrant, pure white flowers.

Easy of culture; does best when left undisturbed after planting.

SPECIOSUM LILY WHITE (L. Speciosum Album). One of the best garden lilies; purest white. Very hardy.

SPECIOSUM LILY, RED (L. Speciosum Rubrum). One of the most showy of lilies of medium height and not difficut to grow in any good garden soil. Like the preceding other than color, which is rosy red, beautifully marked with deeper red.

SPECIOSUM LILY, YELLOW (L. Henryii). A beautiful deep orange-variety of the preceding, easily grown and very showy. 75 cents each. A beautiful deep orange-yellow

TIGER LILY VAR. SPLENDENS (L Tigrinum). This is an improved Tiger Lily and a most beautiful lily for general use.

TIGER LILY VAR. DOUBLE (L. Tigrinum var. fl. pl.) Sin than the flowers which are quite double. Very desirable. Similar to above other

TORCH LILY (Kniphofia Aloides). 3 to 5 feet. August to October. Orange and scarlet. Known as the Red Hot Poker. A desirable border plant. FOR PRICES OF THE ABOVE HERBACEOUS PLANTS SEE PAGE 38.

THE ELM CITY NURSERY COMPANY

TORCH LILY (Kniphofia Pfitzerii). 2 to 3 feet. August to October. Rich orange scarlet, an ideal border plant, very attractive.

satin-pink petals with deep golden

center.

PRICES (strong field grown plants) Each \$1.50; Per 10, \$14.00; Per 100, \$125.00.

The Tycoon. The most gorgeous flower among all the Tree-Paeonies ever produced in Japan, with large, rosy-lilac ragged and undulated petals attaining to 16 to 17 inches across. Strong, heavy-rooted plants, \$5.00 each.

NOTE—Spring planting should be done just as soon as the frost is out of the ground, and Fall planting any time after October 1st.

Brooklyn, N. Y., April 24th, 1913.

I take pleasure in advising you that the last Paeony you sent me is a fine plant. I certainly appreciate your courtesy in seeking to satisfy me in this matter and wish to assure you that if there is any business either of my own or of my friends that I can direct your way I shall be happy to do so. P. M.

THE ELM CITY NURSERY COMPANY

Paeonies (Herbaceous).

The Pacony is to-day without a rival as a hardy garden favorite, and quite naturally so, as no other hardy garden plant thrives with as little special care and produces as fine a display of gorgeous blooms. The great diversity of color and form which can now be obtained in the new and improved varieties very much increases their value.

SELECTED LIST OF VARIETIES.

NOTE. The number to the left of the variety indicates the sizes we have to offer of that variety.

- 1, 2, 3, 4. Alcatre. Large creamy white, very free, late.
 1, 2, 3, 4, Atrosanguinea. One of the best double reds. Deep, full bloom.

*SPIRAEA PALMATA VAR. RUBRA (U. Purpurea Var. Rubra). 2 to 3 feet.

*SPIRAEA PALMATA VAR. RUBRA (U. Purpurea Var. Rubra). 2 to 3 teet. May and June. Deep rose red.

*SPIRAEA PENTAPETALA (U. Pentapetala Var. F. Pl.). 2 to 3 feet. May and June. Old garden plant; pure white flowers on spikes and very attractive. STACHYS BETONICA (Betony). 1 foot. June. Attractive, clear pink spikes. STACHYS LANATA (Woolly Woundwort). 1 to 1½ feet. July and August. Valuable for its very pearly, velvety foliage and ruby red flowers on spikes. STATICE LATIFOLIA (Sea Lavender). 1 to 2 feet. August and September. A beautiful plant producing a cluster of broad evergreen leaves from 4 to 8 inches long, bearing small blue flowers in profusion. Thrives at seashore.

STOKESIA CYANEA, see Aster.

STONE CROP, see Sedum.

SUNFLOWER, GRACEFUL (Helianthus Orgyalis). 5 to 7 feet. October and November. Perhaps the most decorative of this useful class of plants. The tall flower spikes produced so late in the season with their medium sized blooms disposed all along the stems, make it especially useful, exceedingly effective both for garden and house decoration.

SUNFLOWER, MAXIMILIAN (H. Maximiliana). 4 to 6 f October. Fine golden yellow, valuable, late flowering plant. 4 to 6 feet. August to

THE ELM CITY NURSERY COMPANY

SUNFLOWER, MISS MELLISH (H. Rigidus Var.). 5 to 7 feet. July to September. Sparingly branched; rough; flowers rich yellow. One of the best. SUNFLOWER, PEARL (H. Decapetalus Multiflorus Fl. Pl.). 2 to 4 feet. August to October. Resembles a golden double dahlia. SWEET WILLIAM, see Pinks.

THALICTRUM AQUILEGIFOLIUM (Feathered Columbine). 1 to 3 feet. May

White. to July.

THALICTRUM MINUS VAR. ADIANTIFOLIUM (Hardy Maidenhair).

2 feet. July and August. Foliage delicately arranged and graceful.

THALICTRUM POLYGONUM (Rue Anemone). 2 to 3 feet. July and August.

July and August.

White. A very graceful native plant which thrives well in the garden.

THRIFT (Armeria Maritima Splendens). 9 inches. July and August. Evergreen tufts of bright green foliage, from which innumerable flowers appear in dense Pink *THYMUS CITRIODORA AUREA (Golden Thyme). Very trailing. Orange

scented.

*THYMUS SERPYLLUM (White Mt. Thyme). May. Forming dense mats of dark green foliage with white flowers.

TIGER LILY, page 44.

*TRADESCANTIA VIRGINICA (Spiderwort). 1 to 2 feet. June to August.

Blue; grass-like foliage
TRADESCANTIA VIRGINICA Fl. Pl. A double form of the preceding.
*TRADESCANTIA VIRGINICA ALBA. White form, and very attractive.

TRADESCANTIA VIRGINICA ALBA. White form, and very attractive.

TRITOMA or TORCH LILY, see Lily, page 44.

TROLLIUS, see Globe Flower.

TUNICA SAXIFRAGA (Rock Tunica). 9 inches. July and August. A pretty tufted prostrate plant, with dark green foliage, and very pretty, small pink flowers produced in the greatest profusion resembling the flowers of Baby's Breath, blooming all Summer. A most attractive plant either for the rockery or the border.

ULMARIA, see Spiraea.

UNIOLA, see Grasses.
VALERIANA OFFICINALIS (Garden Heliotrope) 4 to 6 feet. June and July.

White, fragrant. An old garden flenotrope). 4 to 6 feet. June and July.

*VERONICA INCANA (Hoary Speedwell). 1 to 2 feet. July to September. Blue.

*VERONICA LONGIFOLIA VAR. SUBSESSILIS. 2 to 3 feet. July and September. Lovely spikes of the deepest clear blue make this plant very desirable, especially at their time of blooming, when blue flowers are very rare.

VERONICA SPICATA. 2 feet. June and July. Long spikes of beautiful blue

flowers.

*VERONICA SPICATA ALBA. 2 feet. July. A white flowered variety of the above

*VERONICA SPICATA ROSEA. 2 feet. July. Spikes of bright rose flowers, a very desirable plant.

VINCA, see Myrtle.

VIOLA, see Violet.
VIOLET, CRESTED (Viola Cornuta Hybrida). Beautiful pansy-like violets with glossy foliage; blooms all summer. Variety of color.

VIOLET, CRESTED WHITE (V. Cornuta Var. Alba). Like the preceding; with pure white flowers.

LET, ENGLISH (V. Odorata Var. Fl. Pl.). The true double, sweet-scented English hardy violet. Color is of the deepest blue. VIOLET.

VIOLET, ENGLISH DOUBLE WHITE. (V. O. Var. Alba Fl. Pl.). Another beautiful form. Flowers double white very large, tinted with pale blue.

WINDFLOWER, see Anemone.

*YARROW, THE PEARL (Achillea Ptarmica Var. Fl. Pl.). 1 to 2 feet. May to Double white. A very effective plant, especially when in bloom. October. Much prized as a cut flower.

YARROW BOULE de NEIGE (Ball of Snow). An improvement on the preceding. YARROW PERRY'S WHITE (Achillea Ptarm, Var.). (New). A novelty of great merit superior to all other varieties, for cutting there is nothing to equal it. Plants in pots at 50 cents each.

*YARROW, RED (A. Millefolium Var. Rubra). 1 to 3 feet. June to October. Wine-red flowers, with aromatic fern-like foliage, which is very ornamental.

YARROW KELWAYI (A. Millefolium Var.). A decided improvement on the preceding, the flowers keeping their color throughout the season.

YARROW, WOOLLY (A. Tomentosum). 8 to 10 inches. June and July. A very attractive little plant, with handsome, deeply cut foliage, and bright golden yellow flowers most suitable for the rockery.

YELLOW LILIES, see page 45.

YUCCA, see Lily, page 44.

HARDY ROSES

ROSES FOR GARDENS are a specialty at the nursery, our sales amounting to many thousands annually. The plants are strong, field-grown bushes, large enough to make a sturdy growth and produce a profusion of bloom right away. This grade of plants is very popular with our customers.

Hybrid Roses.

Strictly Hardy Varieties.

This class of roses blooms profusely in June and at intervals throughout the mer and Fall. The popular hardy garden roses mostly belong to this class and Summer and Fall. are always satisfactory.

Do not allow roses to suffer from want of plenty of fertilizer, as they are gross feeders, and only when they have plenty to feed on can they be expected to produce

best results.

Alfred Colomb. Brilliant crimson. Very large full form. Extremely fragrant.

*Anne De Diesbach. (Syn. Glory of France). Carmine, a beautiful shade; A superior garden sort; very large. fragrant.

Baron De Bonstetten. Rich velvety maroon; large, full. A splendid sort. *Clio. Flowers large, of fine globular

form, flesh color, shaded in the center with rosy pink; growth vigorous.

*Countess of Oxford. Carmine shaded violet, large and full.

*Francois Levet. Cherry pink; medium size; well formed; vigorous habit.
*Frau Karl Druschki. Flowers very

large, beautiful, pure white. This is one of the best white hybrid perpetuals yet introduced.

*General Jacqueminot. Brilliant crimson; not full, but large and extremely effective; fragrant, and of excellent

habit.

Jules Margottin. Carmine rose, fine

in open flower and in bud.
*Madame Gabriel Luizet. Pink, distinct, very large, cup-shaped.

*Magna Charta. Pink, suffused with carmine; full globular. Excellent rose.

*Margaret Dickson. Of magnificent form; white, with pale flesh center; petals very large, shell shaped.
*Marshall P. Wilder. Large, well form-

ed; color cherry-carmine and very fragrant.

*Mrs. John Laing. Soft pink; produced

on strong stems.
*Mrs. R. G. Sharman Crawford. Rosy pink, outer petals shaded with pale flesh, white at base of petals; of perfect imbricated form.

*Paul Neyron. Deep rose color; by far the largest variety in cultivation. *Prince Camille de Rohan. Deep vel-vety crimson; large, moderately full. Tom Wood. Cherry red, full, finely formed, borne on long stems.

*Ulrich Brunner. Brilliant cherry red, a very effective color; flowers of fine

form.

*Victor Verdier. Bright rose, with carmine center, a very clear shade of

Hybrid Tea and other Perpetual Blooming Roses.

Very free bloomers; hardy with slight protection.

Aennchen Muller. Brilliant carminepink.

Baby Dorothy. Dwarf rose with large clusters of blooms, same color as the

popular variety Dorothy Perkins.
*Baby Rambler. Dwarf rose with great clusters of blooms of same color as

*Caroline Testout. Large. Clear bright rose color. Very sweet.

*Capt. Christy. Flesh pink beautifully

formed. *Clothilde Soupert. Very double, pearly

white. *Gruss an Teplitz. Color scarlet shading to velvety crimson, very fragrant.

A charming pink rose. *Killarney.

*Kaiserin Augusta Victoria. An extra fine white variety; perfect in form.

*La France. Delicate silvery rose, changing to silvery pink; very large, full.

*Maman Cochet. Large, full, clear carmine.

White Killarney. A pure white variety of the now well-known Killarney.

*White Maman Cochet. Pure white, tinged pink.

Wm. R. Smith. Large creamy-white with rose shadings, elegant form.

FOR PRICES OF ABOVE ROSES SEE PAGE 54.

HARDY ROSES

THE ELM CITY NURSERY COMPANY

Rambler Roses and other Hardy Climbing Roses.

These are all splendid pillar and arbor roses; are also very effective for planting along fence lines, etc.

- Barbier. Creamy white, canary yellow in center. Attractive foliage.
- Pillar. American Vigorous grower. Single, clear pink.
- Anne of Gerstein. Dark crimson. Hybrid sweet brier.
- Baltimore Belle. Pale blush, becoming nearly white; compact and fine.
- Crimson Rambler. This wonderful Japanese Rose is one of the most important and valuable acquisitions of recent years.
- *Dorothy Perkins. Very double and are borne in clusters of ten to twenty. The color is a clear shell-pink.
- *Hiawatha. Single, bright ruby red, white center with dark yellow anthers.
- ady Gay. Similar to the popular Dorothy Perkins, but lighter in color. *Lady Gay.
- Multiflora. A charming species. Great clusters of white single flowers, showy red fruits which last all winter.

- Philadelphia Rambler. The blooms are larger than the Crimson Rambler and full to the center and of a deeper crimson color.
- Prairie Queen. Bright rosy red, extra. *Setigera. The Michigan or Prairie Rose. Large single flowers, of a deep rose color.
- Sweet Brier. Old favorite, fragrant foliage.
- *Tausendschon, or Thousand Beauties. Charming, strong grower. in large clusters varying from creamy pink to bright red, all in the same cluster.
- Trier. Creamy white with dark yellow anthers and are borne in large clusters.
- *White Dorothy Perkins. Same habit of growth and freedom of flowering as Dorothy Perkins, but with pure white blooms.
- *Wichuriana. Memorial rose, trailing species, pure white, single. William C. Egan. Bloom is large, very
- full, clear flesh-color.

Rosa Rugosa and Its Hybrids.

Rosa Rugosa in its several forms not only makes an effective individual plant but is very desirable for hedges and generous masses.

- *White of Coubert. Semi-double, pure white, long pointed buds, very desirable.
- Madame Geo. Bruant. In the bud state the flowers are long and pointed, when open, semi-double; pure white and fragrant and produced freely.

 ova Zembla. This is a pure white,
- Nova Zembla.
- beautifully formed rose, very fragrant,
- vigorous and free blooming.
 *Rugosa Alba. Single pure white flowers, highly scented; a splendid shrublike rose.
- *Rugosa Rubra. Flowers single, of a most beautiful rosy red succeeded by large berries of a rich orange red color.

Other Choice Hardy Garden Roses.

- Blanche Moreau. (Moss). Pure white, large, full, and of perfect form.

 Blanda. Single pink flowers, followed
- with showy bright red fruits.
- Damask. Popular old-time rose of delightful fragrance and delicate, almost tea rose like delicacy in the opening buds. Pink.
- *Harrison's Yellow. Golden yellow, medium size, semi-double. A free
- Lucida Alba. Beautiful white form of one of our pretty low native roses.
- Madam Plantier. Pure white. Produced in great abundance; vigorous, bushy habit.

- *Persian Yellow. Bright yellow, small nearly full.
 Salet. (Moss). Deep pink colored buds
- surrounded with a mossy fringe and crest. A fragrant and very beautiful moss rose.
- Soleil D'Or. Bright yellow and gold. Spinosissima. (Scotch). Dainty little rose, seldom getting more than two feet. Flowers light rose pink to white. This is a splendid little rose for naturalizing and will grow in very dry rocky places.
- York and Lancaster. Handsome large semi-double blooms, splashed and striped, bright red, white and yellowish tints.

If in doubt as to the varieties of roses wanted for any special purpose we will be glad to assist by making selections for you.

In the event of a variety being out of stock when order reaches us, may we select another variety which, in our opinion, is similar and equally as good? Please indicate your pleasure by drawing line through either NO. If in doubt just what to select, if you will explain to us what results you wish, leaving the selection to us, we can materially assist you. See Landscape department inside back cover.

WHEN ORDERING, WE WILL CONSIDER IT A FAVOR IF YOU WILL NOTE BELOW, THE NAMES OF ACQUAINTANCES WHO YOU BRIDER WAY. of acquaintances who you believe would like to receive a copy of our Catalogue. WE WILL SHOW OUR APPRECIATION IN A SUBSTANTIAL MANNER. TRANSPLANTING INSTRUCTION BOOKLET SENT FREE ON REQUEST.

Nursery Department

We grow and supply the best grade of nursery stock the market affords. Our facilities are very complete, every department being under efficient management. That our methods are meeting with popular favor is evidenced by the rapid growth our business enjoys. By purchasing from our nurseries you are guaranteed High-Quality stock. Our nursery stock is grown under most favorable conditions, dug and packed by skilled and careful workmen, and can be depended on to produce maximum results when planted under favorable conditions. The nurseries are open to the public every day of the year, but positively no business will be transacted on Sunday.

Landscape Department

Where best results are anticipated in landscape and other gardening work, experience is a most important factor. Our Landscape Department is under well-equipped and expert management. We are glad to offer suggestions without charge to intending purchasers, but where landscape problems require special visits, plans, specifications, etc., a charge is made consistent with value of services rendered. We will be pleased to take up this matter more fully with those who are interested. Ample reference from those who have employed us.

Send for our cross-section *sketch-sheet* blank. On filling it out and returning it to us we will offer you valuable suggestions for your grounds without charge.

IMPORTANT LANDSCAPE PROBLEMS

It is seldom advisable to attempt to hurry through important landscape problems. Time enough should be given to work out an original idea, and thoughtfully get into shape necessary sketches, drawings and specifications, so that work can proceed methodically and, therefore, economically.

Popular Talks

Arrangements can be made for talks before Village Improvement Societies, Horticultural Societies, etc., on gardening, landscape and other kindred subjects, with or without lantern-slides.

Gardening Department

We maintain a force of competent gardeners who do gardening work in a thorough and practical manner. Pruning and otherwise caring for established trees, vines, etc., is a special feature of our work, and one that an owner can afford to put into experienced hands only. Many trees whose worth cannot be counted in dollars, which are perishing from neglect, can often be restored to health and given a new lease of life if given proper treatment.
